

February 25, 2011

Dear Ray,

On behalf of the American Cancer Society King County District, I want to thank you for the great DJ and sound support you have provided to multiple American Cancer Society events over the years since 2006. Because you provided outstanding sound equipment and DJ service at a discounted cost to these events, more fundraising dollars could go towards our mission – eliminating cancer through research, education, advocacy and patient services.

Our participants could not have been happier with the quality of your equipment – you truly run a first rate service. Your enthusiastic spirit, high caliber of equipment and thorough technical knowledge brought our events to a new level of professionalism – thank you for that!

The American Cancer Society's mission is to eliminate cancer as a major health problem by preventing cancer, saving lives, and diminishing suffering from cancer, through research, education, advocacy, and service. With your help, we are striving to reach our 2015 goals: To lower the number of people dying of cancer by half, to reduce the occurrence of cancer by 25%, and to improve the quality of life of all those affected by the disease. With people like you and your staff, fighting side by side to end this disease, I am confident that we will reach our 2015 goals together.

Sincerely,

Laura St. Germain
District Executive Director
King County District
American Cancer Society
